PROFESSIONAL SUMMARY

B.TECH IT graduate (CGPA 9.52) and Junior .NET Developer (Trainee) with hands-on experience in C#, ASP.NET Core, SQL Server and REST APIs, plus have front-end skills like Angular and ReactJS. Built web applications, including a Python FastAPI AI chatbot, and completed an industry internship. Strong in OOP, database design and clean, maintainable code. With a positive mindset and a commitment to continuous learning, I hope to contribute my ideas and efforts in a techie environment while building strong career in the field of technology.

TECHNICAL SKILLS

- **Backend:** C#, ASP.NET Core, ASP.NET MVC, ASP.NET Core Web API (REST), Entity Framework Core (EF Core), Dapper, LINQ, VB.net, OOP
- **Frontend:** Angular, JavaScript, HTML5, CSS3, Bootstrap, ReactJS, JQuery
- **Databases:** Microsoft SQL Server, MongoDB, MySQL (Queries, Joins, SP, Indexing)
- **Other Languages:** Python (FastAPI)
- **Tools:** Git, GitHub, Visual Studio, VS Code, SSMS, Postman, Swagger

EDUCATION

B.TECH in Information Technology – Marwadi University, Rajkot 2022 – 2026

CGPA: 9.52 / 10 (95.20%)

EXPERIENCE

Junior Developer (Intern) – Amar Infotech, Ahmedabad June 2026 – Present

- **Tech:** ASP.NET, C#, SP, SQL Server, Angular

Web Developer Intern – BrainyBeam Technologies, Ahmedabad May 2025 – June 2025

- **Tech:** ReactJS, HTML5, Bootstrap

KEY PROJECTS

Content Reading App June 2026 – Sept 2026

- **Technologies:** ASP.NET Core Web API, SQL Server, EF Core, Angular, Bootstrap, Clean Architecture
- Developed a content-sharing and reading platform using ASP.NET Core Web API with Angular frontend. Implemented content creation, reading, updating, deletion, categorization, and search functionality. Designed the application so users can act as both authors and readers, allowing them to manage their own content and explore content published by others. Used Entity Framework Core for database operations and implemented Clean Architecture to maintain separation of concerns and improve maintainability.

AI Chatbot Web App July 2025 – Sept 2025

- **Technologies:** Python, FastAPI, REST API, Angular, OpenAI API
- Developed an AI-powered chatbot web application with FastAPI REST APIs and an Angular frontend for interactive and responsive chat and dashboard interfaces and conversation history management, allowing users to create, store, view, and delete chats. Integrated the OpenAI API to enable AI-powered conversations with a responsive, real-time chat experience.

E-Commerce App Jan 2025 – Feb 2025

- **Technologies:** ASP.NET Core Web API, SQL Server, EF Core, Angular, JSON
- Implemented product categories, search, filtering, pagination, shopping cart, and order management. Built CRUD functionality for admin/seller users to add, update, and delete products. Implemented order functionality allowing users to place, view, and search their orders. Used EF Core for efficient database operations and REST APIs for communication between the frontend and backend.

Result History Web App Aug 2024 – Sept 2024

- **Technologies:** HTML, JavaScript, Bootstrap, CDNJS (Excel data)
- Developed a web-based student result portal for quickly accessing examination results. Implemented result searching using Enrollment Number / GR Number and subject-specific access mechanisms. Used for any recently uploaded result data from Excel-based sources for displaying student marks. Designed a responsive and simple interface using HTML, JavaScript, and Bootstrap for easy access on different devices.

ADDITIONAL INFORMATION

Soft Skills: Communication | Presentation | Teamwork | Problem Analysis | Time Management

Languages: English | Hindi | Gujarati **Hobbies:** Reading | Sketching

DECLARATION

I hereby declare that all the information above is correct and accurate to the best of my knowledge.
